INDEPENDENT DESIGN & TECHNOLOGY PRACTICE

Software. Data. Design. Place.

A Zimbabwe-registered design and technology studio working across Zimbabwe and the United Kingdom. We connect software, data, digital experience and place-based information with the practical work an organisation needs to do.

FOUR CONNECTED DISCIPLINES

01

Software & data

Database models and resource registries. Service portals, APIs and integration. Infrastructure, automation, permissions and reporting.

02

Design & digital

Websites, product journeys and visual identities. Editorial systems, interactive storytelling and digital content.

03

GIS & spatial

Geospatial data and map interfaces. Property and planning explorers, digital atlases and evidence-linked place records.

04

Business & diaspora

Company Desk for Zimbabwe company formation, tax, Articles, PRAZ and banking-document preparation. Authorities and banks make approval decisions.

INSTITUTIONAL BRIEFS

Resource numbering and allocation. Licence and case records. Public-service applications. Integration, operational reporting and place-based information.

Scope and controls follow the actual requirements, source systems and operating environment.

DELIVERY & ACCOUNTABILITY

From the brief to the handover.

01 **Discover**
Brief, source records, users, constraints and responsibilities.

02 **Define**
Scope, requirements, acceptance evidence and delivery plan.

03 **Design**
Service journeys, data model, interfaces and permissions.

04 **Build**
Working increments, integrations and recorded reviews.

05 **Verify**
Functional checks, data reconciliation and release readiness.

06 **Transfer**
Documentation, training, ownership and support arrangements.

WORKING EVIDENCE / OPEN THE EXAMPLES

My Destiny Inc.
PROJECT CASE STUDY
Captured website journeys and three original/rebuild comparisons.

TN account-opening portal
WORKING PREPARATION PORTAL
Account-document preparation. Bank review and activation remain separate.

Somerleyton Living Estate
INDEPENDENT WORKING STUDY
A photographic estate atlas. Not a claim of an estate commission.

NAMED LEAD

Tawanda Elvis Mukoko
Founder & delivery lead

hello@mukoko.studio

mukoko.studio/capabilities

Scope, specialists, hosting, licences, responsibilities and support are agreed per engagement. Statutory documents, references and partner authorisations are supplied where available and relevant to the brief.
